Adding decimals

Name: _____

Hour: _____

Date: _____

Using the ad, calculate the following costs (be sure to show your work):

1. Find the cost of 2 cans of DelMonte fruit.

2. Find the cost of one package of Oreos and one can of LaChoy chicken.

3. Determine the cost of 4 pounds of whole pork tenderloin.

4. Find the cost of one carton of Dannon All natural yogurt, 3 cans of DelMonte vegetables, and one bottle of Hunt's ketchup.

5. Oops! I lost my receipt and need to know what was purchased. I spent a total of $10.51. Create a list of the 5 items I purchased.

6. Mr. Avink was sent to the store with $8.75. He lost the list of what he was supposed to buy. Create a list of possible items that add up to only $8.75. *(Hint: there are more than 3 of possible answers.)*

Things to remember when adding decimals:
1.
2.
3.
4.

Practice
Rewrite each problem to show ALL work.

1. 65.84 + 3.21

2. 0.185 + 6.87

3. 98.2 + 2.4955

4. 0.248 + 12.57

5. 3.24 + 7.1

6. 0.48 + 2.761

7. 5.547 + 61

8. 56.4 + 97.04
