

## Ordering Fractions, Decimals & Percents Homework

Name \_\_\_\_\_ Class \_\_\_\_\_

Answer each question in complete sentences.

- 1) Do you have to convert all your numbers to the same form before ordering them? Why or why not?

---

---

---

- 2) Tell how you would explain to another student how to order numbers written as fractions, decimals, or percent.

---

---

---

---

---

---

- 3) Explain which sorting activity from class today was the easiest. Why was it easiest?

---

---

---

---
