<p>Addy and her mom are going shopping on Saturday. They bought at least one item from each of the 3 departments that they visited. Addy gave the clerk \$120 and she got back \$11.76 change. What items did they buy? Think about how much they spent. NO TAX TODAY!</p> <p>HOUSEWARES Dish towels: \$11.38 Curtain Rods: \$12.98 Bath Mats: \$29.58</p> <p>CLOTHING Shirt: \$30.98 Dress: \$49.90 Slacks: \$39.90</p> <p>TOOLS Hammer: \$17.90 Saw: \$23.90 Drill: \$25.78</p>	<p>Which two integers have a sum of 15 and a product of 36?</p>	<p>Shawn wants some doughnuts. He is very cheap and likes to save even the smallest amount of money. He found a coupon in the paper for <i>Dunkin' Donuts</i>. The coupon was for \$1 off a dozen. This week they are on sale for \$3.99 a dozen without the coupon and \$.35 a piece if you use the coupon. What do you think Shawn will do and why?</p>
<p>What is the largest three digit number that has both vertical and horizontal symmetry? Think of a three letter word with horizontal symmetry.</p>	<p>Mr. Batdorff planted a vegetable garden, $\frac{1}{2}$ of which was in tomatoes. He planted $\frac{1}{4}$ of the remaining ground in carrots. He then planted lettuce in $\frac{1}{2}$ of the rest. The amount that remained was planted in corn. What percent of his garden was planted in corn?</p>	<p>Compare different pay scales. Decide if it is better to receive \$300 a week or to be paid hourly at a rate of \$7.50 per hour. What factors could affect your decision?</p>
<p>Skylar calls two members of her softball team to schedule a practice. Each of those two members calls three other team members. Then, each of those members calls two more team members. How many team members are called? Do not include Skylar.</p>	<p>You buy four packages of shoe laces. You pay with a \$10 bill and receive \$3.24 in change. What is the price of each package of shoe laces?</p>	<p>There are eight dogs in a kennel. The two small dogs need 1 cup of food a day. The three medium sized dogs need 2 cups of dry food each day. The remaining three dogs are larger and need 4 cups each day. What is the total amount of dog food required daily? Also, what is the mean average amount of food required per dog each day?</p>
